

Catalyst of analysis.

Turn thoughtful analysis into a clear next move.

STRATEGY, IDENTITY, APPLICATIONS, GOVERNANCE

THE PROBLEM IS NOT THOUGHT.

It is thought with nowhere to go.

DecisionInvitation gives analysis a purpose: a clear question, independent perspectives, and a next move the owner can stand behind.

PARALYSIS OF ANALYSIS

More input. Same circle.

The question widens. The room converges. The owner still cannot see what would change the call.

CATALYST OF ANALYSIS

A question. A way forward.

A decision, a condition to satisfy, or a missing fact to establish. Forward motion does not mean rushing judgment.

The owner makes the call. Perspectives inform it; the product does not manufacture consensus.

THE PRODUCT IN ONE SENTENCE

A clearer next move.

For people responsible for a consequential choice, DecisionInvitation frames the question, invites perspectives separately, and makes the reasoning useful.

Its identity must be purposeful, exact, open, and accountable - established in its own right, with one quiet trace of aSUKIra.

01 / DECISION OWNER

Help me see what would move the question forward.
Keep the final call mine.

02 / INVITED CONTRIBUTOR

Tell me why my view matters, what is being asked,
and who can see my response.

03 / ORGANIZATIONAL READER

Show a credible workflow and explicit operating
boundaries before ambitious claims.

THE CORE IDEA

Catalyst of analysis.

A strategic idea alongside the warm product language the user values. It does not require replacing the existing homepage headline.

Better input.
Clearer decisions.

A quieter way to decide
Ask separately. Decide clearly.

Invite the perspectives.
Keep the responsibility.

THERE IS A DECISION WAITING FOR A BETTER QUESTION.

THREE ROUTES. ONE RECOMMENDATION.

Open frame.

A held question, separate perspectives, and a deliberate way through.

01 / OPEN FRAME

Structure creates a way forward.

Distinctive in one color; flexible from a favicon to an editorial page. Recommended for development.

RECOMMENDED / PROPOSED

02 / CONSIDERED EXCHANGE

Many perspectives, one responsible call.

An exchange-led system would emphasize contributions. Risk: looking like chat, polling, or a social network.

EXPLORED / NOT SELECTED

03 / DECISION CORRESPONDENCE

A question worth responding to.

An invitation-led editorial system could feel highly personal. Risk: resembling notices or formal/legal stationery.

EXPLORED / NOT SELECTED

A SIGN OF ITS OWN

One opening. One orange point.

Use the supplied vector. These measurements describe the master; they are not an invitation to redraw it.

Master	256 x 256 coordinate field
D	x 24-178 / y 40-224 / 34-unit aperture
i	32 x 114 stem / point radius 18
Clear space	x beyond the visible artwork, on every side
Small sizes	Main from 24 px; micro preferred at 16-32 px
Micro distinction	Closed D aperture and a stronger i stem

A COMPLETE WORKING SET

Recognizable in every register.

PRIMARY / LIGHT FIELDS

REVERSE / INK FIELD

ONE COLOR / INK

ONE COLOR / WHITE

RESPONSIVE USE

16 PX

24 PX

32 PX

48 PX

Full name at first contact.
Do not crop or reassemble.

A FIELD FOR CONSIDERED WORK

Quiet by proportion.

Orange is the family trace. Ink, Paper, and a particular green-gray world make the product its own.

- **Decision Ink** #182B33
Anchor / primary text
- **Field Green** #52766D
Secondary expression

- **Paper** #F5F4EF
Main reading field
- **Signal Orange** #D54B1E
Point / scarce accent

- **Mist** #E4ECEA
Supporting structure
- **White** #FFFFFF
Utility contrast

MEASURED, NOT ASSUMED

Restraint makes it work.

Contrast values below are calculated from the exact solid sRGB colors. Changing opacity or background changes the result.

Ink / Paper	13.31 : 1	Reading / pass
Ink / Mist	12.21 : 1	Reading / pass
Green / White	5.03 : 1	Reading / pass
Green / Paper	4.57 : 1	Reading / no opacity
Orange / White	4.33 : 1	Not normal text
Orange / Paper	3.93 : 1	Not normal text
Green / Mist	4.19 : 1	Not normal text

A CLEAR ACTION

Review the question

Use Ink for the primary action.
Explain states with words, not color alone.

Read the question

4.5:1 normal text; 3:1 large text and essential graphics. Logo exemption is not a rule for UI text. This is a pairing check, not a certification.

SOURCE SANS 3 / 400 + 600

IBM PLEX MONO / 400

Better input. Clearer decisions.

Warm enough to invite a perspective. Precise
enough to carry the reasoning.

- 01 / QUESTION
- 02 / PERSPECTIVE
- 03 / NEXT MOVE

Utility, not personality by
volume. Use for labels, dates,
identifiers, and measured
information.

DISPLAY	SECTION	BODY	UTILITY
88-120 px	40-64 px	18-20 px	11-13 px
400 / editorial	400 or 600	400 / 1.5-1.65	400 / short labels

STRUCTURE CAN CREATE MOVEMENT

Hold the question. Leave a way through.

One dominant frame. One deliberate opening. The device carries composition, not simulated product state. A framing line is not an input border.

MOTION, WHEN USEFUL

160 ms feedback / 320 ms transition
No pulsing mark. No looping urgency.
Reduced motion: static final state.

PURPOSEFUL. EXACT. OPEN. ACCOUNTABLE.

An invitation, not pressure.

ILLUSTRATIVE INVITATION / NOT A LIVE WORKFLOW

What would change your view?

Morgan is asking for your perspective on the proposed launch date. What supports the date, and what condition would make you change it?

Visibility and deadline language must match the actual invitation. Supply the authorized audience before publishing.

INSTEAD OF

Help us confirm the right answer.

Make room for disagreement.

INSTEAD OF

Decide instantly. Get perfect clarity.

Name the fact you still need.

INSTEAD OF

The platform makes the decision.

The owner makes the call.

A SYSTEM BEYOND THE LOGO

One product. Many useful surfaces.

LAYOUT SPECIMENS / NOT DEPLOYED PAGES OR CONTACT RECORDS

ESTABLISHED ON ITS OWN

Related. Not dependent.

The orange point is enough to reward a closer look. DecisionInvitation does not need a parent badge in its primary signature, navigation, avatar, or call to action.

OPTIONAL, FACTUAL FOOTER ATTRIBUTION

A product in the aSUKIra family

WEBSITE

Product first. Public /brand reference with downloads, version, and honest status.

SOCIAL

Recompose for the actual crop. One idea, one signature, readable on a phone.

EMAIL / DOCUMENTS

Text-led, useful, and specific. No invented contacts, addresses, or trust seals.

PARTNER WORK

Keep marks separate. Match optical weight and obtain explicit permission.

CONFIDENCE COMES FROM PRECISION

A brand promise is not a receipt.

Private is not anonymous.	Name the actual permitted audience before submission.
A suggestion is not a decision.	Keep the owner accountable; distinguish synthesis from approval.
Built is not live.	Separate local output, publication, host acceptance, and live route verification.
Exported is not approved.	The user directs the strategic idea; the new visual system still needs review.

RELEASE PATH

Brief ____ Build ____ Validate ____ Review ____ Publish ____ Adopt

Use the source manifest, channel guides, claim register, brief templates, and adoption ledger. Do not use an asset count as a quality gate.

Invite the perspectives. Keep the responsibility.

A distinct product identity with a quiet family trace.
A thoughtful answer to the paralysis of analysis.
